

BRSD STAFF DEVELOPMENT PLAN 2009-10

"Every Student, Every Day, A Success"

To ensure high quality teaching and learning in Battle River School Division, we believe that all staff must be committed and dedicated to their own continuous professional learning. The Battle River Staff Development Plan 2009 – 2010 provides a variety of professional growth opportunities for all staff:

- to support deeper understanding of new content knowledge and skills and refine current practices
- to incorporate research-based strategies into our work
- to gain expertise in collaborative learning and facilitation processes
- to build the leadership capacity of all staff
- to address the academic, character and relationship needs of students related to the BRSD Pyramid of Success and in direct support of BRSD's Goals

In Battle River School Division, we believe the duty of professional development resides with the school division, the school, and the individual. Ongoing professional learning is crucial to meeting the learning needs of our students.

This plan focuses on teaching and learning, assessment for learning, implementation of new curriculum, and leadership development. It is our sincere hope that BRSD staff will take advantage of the sessions that are offered in this plan, while also pursuing professional growth opportunities both at the school and individual level.

This Staff Development Plan is a fluid document that will be regularly updated on the BRSD website. **Sessions that have been recently added or updated (i.e. times, location) are shaded in light yellow.**
